We LOVE Mr. LYNCH!

Glenwood Avenue 5th grade students pose for a picture in perfectly silly ‘Mr. Lynch’ style, excited to surprise him in The SUN

Lunch with Lynch is a non-profit organization partnered with the Fraternal Order of Police that works to help children in need, with a focus within the area of Wildwood City. Many students at the local schools fall below the poverty line, and according to recent New Jersey Census data, Wildwood City was reported to have the highest percentage.

One result of the students’ situation of poverty is that they have limited opportunities to gain experiences that occur off the island and outside of Wildwood. The Lunch with Lynch program believes that these experiences are an important component to the development of their character, so the focus has been to fund unique experiences for them. The program has accomplished this by assisting with the costs of transportation and admission for field trips, and also by securing speakers to come to the school to share their experiences. The Lunch with Lynch program has accentuated the school children’s education by enriching them in many ways. Here are a handful of ‘Thank You’s’ from a handful of children that have been blessed through the compassionate efforts of Mr. John Lynch, aka MR. LUNCH. To learn more visit www.LunchWithLynch.com
